PROFESSIONAL SUMMARY:

Innovative Software Developer / Frontend Developer with 4.4 years of experience, recently upskilled in backend development using Node.js, Express.js, MongoDB, and Mongoose. Adept in building scalable full-stack applications using modern JavaScript frameworks. Proficient in front-end technologies like React.js and Angular, and now expanding capabilities into full MERN stack development. Passionate about continuous learning, improving performance, and contributing to end-to-end project lifecycle.

SKILLS:

- **Programming Languages:** JavaScript (ES6 +), TypeScript
- **Frontend Technologies:** HTML, CSS, SCSS
- **Backend & Full-Stack Development:** Node.js, Express.js, MongoDB, Mongoose, RESTful API Development, JSON Handling, MVC Architecture, Authentication & Authorization (JWT, OAuth)
- **Frameworks & Libraries:** React.js, Angular (Basic), Material-UI, Chakra UI, Bootstrap, Recoil, React-Konva, Three.js, Three Fiber, Jest, Shade-CN, React Testing Library, Tailwind CSS, Redux, AgGrid, DHTMLX, NPM
- **Tools & Platforms:** GitHub, GitHub Actions, GitLab, Visual Studio Code, Postman, Figma, Canva, Adobe XD, Webpack, Vite, Modular Development, Unit Testing, Chrome DevTools,
- **Cloud & CI/CD:** MS Azure, CI/CD pipelines, JIRA, Agile Scrum, Version Controlling, Azure Devops
- **Databases & APIs:** REST APIs, JSON, RESTful APIs, Authentication (JWT, OAuth)
- **Expertise:** Full software development lifecycle—including initiation, planning, development, deployment, and support, Component-Based Design, Performance Optimization
- **Soft Skills:** Adaptability, team collaboration, communication, analytical thinking, team leading, multitasking under pressure, performing code reviews, working independently

EXPERIENCE:

Software Engineer | Kanaka Software Consulting Pvt. Ltd. | Pune, Maharashtra | July 2024 – 1st Jan 2025

- Designed and developed **scalable frontend applications** for structural engineers, optimizing efficiency by **60%**.
- Integrated **MSAL authentication** to ensure secure access, improving security compliance.
- Enhanced **3D visualization** using Three.js and advanced UI interactions, reducing design errors by **50%**.
- Implemented **chatbot UI** to improve real-time user interaction by **40%**.
- Led **code reviews and mentorship**, enhancing code quality by **50%**.

Associate Software Engineer | Kanaka Software Consulting Pvt. Ltd. | Pune, Maharashtra | Oct 2022 – June 2024

- Designed and developed **scalable web applications** using **React.js and TypeScript**.
- Integrated **RESTful APIs** for seamless backend communication.
- Implemented **customizable ERP modules** to align with business workflows.

- Conducted **requirement analysis** and collaborated with stakeholders to define technical specifications.
- Created and maintained **technical documentation** for system design and development.

React.js Developer | Iconic E-Tech Pvt. Ltd. | Chennai | May 2020 – August 2022

- Built **responsive UIs** using React.js, Redux, and Bootstrap, ensuring **seamless cross-device experiences**.
- Developed **reusable and scalable UI components**, reducing development time.
- Integrated **REST APIs**, improving application responsiveness.

PROJECTS:

- **Emulation Lab | React.js, HTML5, CSS3, Material-UI, Recoil, Figma, Mural, Postman, Azure Boards, Jest (Unit Testing), Axios**
 - Developed **dynamic and scalable UI components** to enhance maintainability.
 - Integrated APIs with Axios for efficient front-end-backend communication.
 - Integrated a **chatbot interface**, reducing support queries by **30%**.
 - Improved application performance by **80%** through optimized code and component reusability.
- **Project Lightening | React.js, Recoil, HTML5, CSS3, Material-UI, Shade-CN, Three.js, Three Fiber, Postman, Azure**
 - Designed and implemented a responsive UI, increasing user engagement by **40%**.
 - Upgraded UI views with real-time dynamic data rendering for better interactivity.
 - Utilized React Router-Dom for seamless navigation across multiple views.
 - Collaborated with clients to define requirements and deliver high-quality solutions.
- **Unique Blinds | React.js, HTML5, CSS3, JavaScript, REST API**
 - Designed and developed responsive UIs to ensure an intuitive, visually appealing experience.
 - Developed functional UIs from custom wireframes, ensuring brand consistency and alignment with client expectations.
- **Offilms | React.js, Redux, React Bootstrap, HTML5, CSS3, JavaScript, Fetch API**
 - Developed cross-device compatible, intuitive UIs using React.js.
 - Designed and implemented reusable, dynamic components, enhancing scalability and development efficiency.

EDUCATION:

Matoshri Pratishthan COE, Nanded.	June 2015 - June 2018
B.E- CGPA (9.18)	
Govt. Polytechnic college Nanded	June 2011- June 2014
Diploma (77%)	

I hereby declare that the above information is true to the best of my knowledge.

Place: Jeddah, Saudi Arabia
